

## Australian Standards Online

### About Australian Standards Online

Current staff and students of Federation University Australia can access Australian Standards Online. This database has full-text coverage of Australian standards, plus citation information for ISO, IEC and other selected national standards.

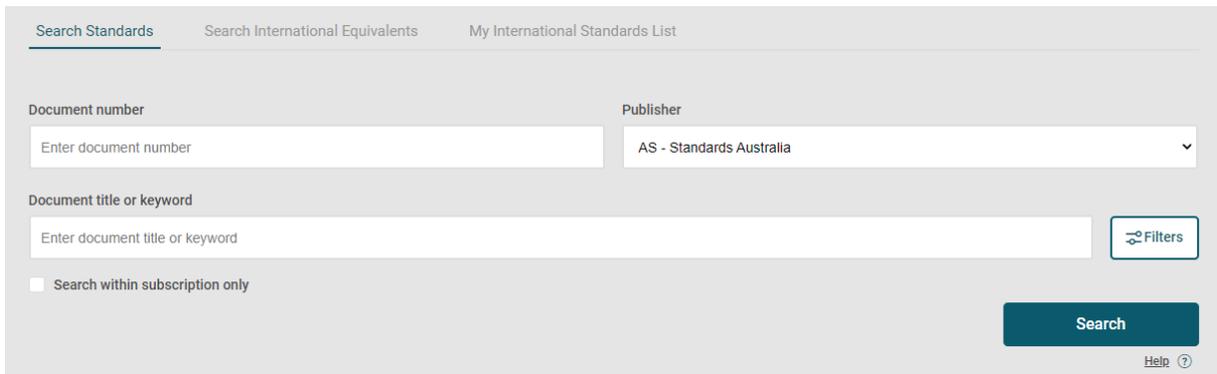

### Accessing Australian Standards Online

There are a few paths to access the Standards, here is one:

1. Go to Federation University Library at [federation.edu.au/library](http://federation.edu.au/library).
2. Select the **Databases** link and **Search by databases A-Z list**
3. Enter title search terms "Australian Standards Online" in the Find databases box or
4. Click on "A" and scroll down to the Australian Standards Online database link

**Two users** can be logged into Australian Standards Online at any one time. If both licences are in use, a **View Users** icon will display instead of the usual **View Document** icon.

### Search Australian Standards Online

The screenshot shows the search interface for Australian Standards Online. It features three tabs at the top: "Search Standards" (selected), "Search International Equivalents", and "My International Standards List". Below the tabs are two input fields: "Document number" with a placeholder "Enter document number" and "Publisher" with a dropdown menu showing "AS - Standards Australia". Below these is a larger "Document title or keyword" field with a placeholder "Enter document title or keyword" and a "Filters" button. A checkbox labeled "Search within subscription only" is located below the title field. A "Search" button is positioned at the bottom right, and a "Help" link with a question mark icon is at the bottom right corner.

This is the default search screen where you can search on either the standard **number**, or **keywords** that appear in the standard's **title**.

For example, the standard *AS 4381 Single-use face masks for use in health care* could be retrieved by:

- **Document number** through entering **4381** and clicking on **Search**, or;
- **Keyword** in title through entering **mask** and clicking on **Search**

**Hint:** click on **Search within subscription only** to find only items available in full-text.

## Search filters

**Document number**

**Publisher**

**Document title or keyword**

Search within subscription only

**Status**

**ICS Code**

**Publication date from**

**Publication date to**

**ISBN**

**Technical committee**

[Help](#)

Click on the **Filters** box to construct a more complex search when you have several different search criteria; for example: document status (current, withdrawn), ISBN or publication date range.

## Subject Search

Click on **Tools** in the top-right of the screen and select **Subject- ICS Search**.

This is a guided search option in which you can select the broad subject area that matches your topic and then follow the links to the sub-categories. It can be a useful way to identify further standards you may not be aware of in that particular subject area.

## Search Results

To view more detailed information about a standard when looking at a search result, select the title of the standard.

Often included is:

- the status of the standard (e.g., current, superseded)
- the publication date & number of pages
- the ISBN
- any standards it supersedes or any amendments to it
- the scope of the standard (click on drop-down arrow to view)
- the application
- abstract
- the document's history (e.g. first publication date, revisions or amalgamations).
- cross-references to other standards it refers to and other standards that refer to it
- other suggested/related publications eg Legislation or Codes of Practice referencing the standard

## Viewing an Australian Standard

To view or download a document you will now need to register for an individual user account. Follow these steps to create an account.

1. Click on the **View Document** icon

2. Click on new registration

**Individual User Registration**

This document must be watermarked with your name and email address. To verify your name and email address, please proceed to Registration.

[New Registration](#)

3. Enter your details and Federation University email (this will be your username)

4. Click

[Verify My Email](#)

5. Enter the 5 digit verification code, sent to your registered email

6. You will be sent another email with your password

7. Enter your Username and password to access the document.

**Success**

We've emailed you your new password.  
Enter your email address and password to access this document immediately.

[Back](#)
[Continue](#)

Once you have registered and/or signed in, click on **Open Document** to display the standard, or **Save File** to download.

- Documents will be watermarked with business & user email address
- Documents are locked by user
- User can download, save & print document
- Standards cannot be shared, uploaded to an intranet or sent to another user, as document is locked to initial user.

**Limits to use** - Please view the full **Conditions of Use** in SAI Global.

You may:

- make paper copies of Standards supplied under this service. These are licensed copies, intended for use only by the individual user.
- download electronic copies of Standards for temporary off-line purposes (5 days in total). These downloaded copies may not be used to build up a reference collection and are encoded with a predetermined expiry date, after which they cease to be accessible.

### Downloading a standard:

- From 30 April 2021, accessing Australian standards will require [Acrobat Reader](#) and the [FileOpen plugin](#) (available in the Software Center for ITS-maintained computers).
- Further information:
  - [Standards FAQ](#)
  - [FileOpen](#)

### Help and StandardWatch

For technical help and troubleshooting tips, visit the **Help and FAQs** option under **Help and other links** in the top right-hand of the screen.

The **StandardWatch** facility keeps you up to date with changes in standards. Users can create an account to receive a customised e-mail news service regarding nominated standards.

### Logging out

Please select the **Logout** from the top-right corner when you have finished. You will be automatically logged out if the database has been idle for 20 minutes; if this happens, you will need to log in again to continue.
